

Squid® Window Textile

A revolutionary textile look for windows

Squid® is a self-adhesive and printable textile that gives you brand new options for interior window decoration, proving a big hit across interior design and architectural applications. It's the straightforward way to create fresh new looks in homes, offices, hotels and public spaces.

This innovative textured material comes in two versions: semi-transparent and opaque. The semi-transparent version lets you see out during the day, while making it hard to see in from outside. The opaque version is a densely woven textile solution that provides full privacy, yet allowing light to shine through. You can take your pick from six on-trend colours - Chalk, Bone, Oak, Ash, Rock or Coal - All with a winning 'natural textile' look and feel. The fabric is both moisture and heat resistant, and very easy to tailor to your exact specifications. Squid® Series performs very well with a variety of print platforms, and offers a grade especially designed to suit latex inks. Squid® is easy to install, maintain and remove and comes with a durability up to 5 years.

Thanks to Squid's elegant and minimalistic touch, you can add a warm textile appearance to your windows and create unique atmospheres.

Advantages

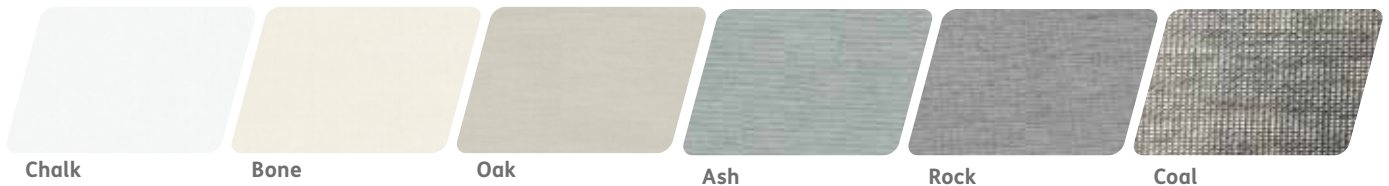

- PVC free, halogen free
- 100% woven polyester textile for a unique look and feel
- Provides privacy
- Resists moisture
- Regulates lights and solar transmission (reflects up to 50% of solar radiations)
- 6 different colours: Chalk, Bone, Oak, Ash, Rock and Coal
- Adapts to any odd window shape
- Easy and quick application
